Course objectives:

Implementation of a treasury Treasury Activities & Facilities Management strategy is fundamental to a streamlined treasury. In its endeavor to achieve this, our product has an entire course group dedicated to implementation issues. Some of the topics include treasury software systems available, a framework for formulating a policy statement (with illustrations). Control issues affecting the treasury function are explained with practical caselets keeping in view the norms set by regulatory bodies. The later part of the course group deals with accounting issues as under FAS133 and IAS139..
